

DATE _____

1 Solve.

$$214 + 100 = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} + 115 = 215$$

$$591 + \underline{\hspace{2cm}} = 691$$

$$\underline{\hspace{2cm}} = 100 + 218$$

Unit

2 Solve.

$$\begin{array}{r} 23 \\ + 58 \\ \hline \end{array}$$

Ballpark estimate:

3 Miguel had 18 grapes. He ate 7. His mother gave him 10 more. How many grapes does he have now?

Number model(s):

Answer: _____ grapes

4 Fill in the missing numbers.

	908
917	

5 **Writing/Reasoning** How might the ballpark estimate in Problem 2 help you with the problem?
