

Basketball Addition

Directions

NAME

DATE

- Materials** *Basketball Addition* Scoreboard (journal page 171 or page G27 from your teacher)
 one 20-sided die or three 6-sided dice

Players 2 teams of 3–5 players each

Skill Adding three or more numbers

Object of the game To score more points

Directions

- ① Players on opposite teams take turns rolling one 20-sided die or three 6-sided dice.
- ② Each player enters his or her score on the *Basketball Addition* Scoreboard. (If you rolled three 6-sided dice, your score is the sum of all three numbers.)
- ③ After all players on both teams have rolled the dice, each team finds its score for the first half. They add the scores of all the players on their team and enter the total Team Score on the scoreboard.
- ④ Players repeat Steps 1–3 to find their team's score for the second half of the game.
- ⑤ Each team adds the team totals from both halves of the game to find its final score.
- ⑥ The team with more points wins the game.
