

Drawing a Picture Graph

(continued)

Use the information from the picture graph on page 172 to solve the number stories. You may draw a diagram to help.

- 1 How many trips in all did Bonnie Dunbar and James Wetherbee take into space?

Number model: _____

They took _____ trips into space.

- 2 How many trips in all did the male astronauts take into space? (Bonnie Dunbar is the only female astronaut in the table.)

Number model: _____

The male astronauts took _____ trips into space.

- 3 How many more times did Jerry Ross go into space than Bonnie Dunbar?

Number model: _____

Jerry Ross went into space _____ more times.

- 4 Use the information from the picture graph to write your own number story.
