

DATE _____

1 Solve.

$$445 + 100 = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} + 342 = 442$$

$$778 + \underline{\hspace{2cm}} = 878$$

$$\underline{\hspace{2cm}} = 100 + 265$$

Unit

2 Solve.

$$\begin{array}{r} 36 \\ + 49 \\ \hline \end{array}$$

Ballpark estimate:

3 There are 12 children in the pool. Then 5 get out. Then 9 more jump in. How many children are in the pool now?

Number model(s):

Answer: _____ children

4 Fill in the missing numbers.
