

- 1 Solve.

Unit

$$34 + 20 + 16 + 25 = \underline{\hspace{2cm}}$$

- 2 The white flagpole is 38 feet tall. The gray flagpole is 20 feet tall. How much taller is the white flagpole than the gray one?

Answer: $\underline{\hspace{2cm}}$ feet taller

- 3 Solve. You may draw a diagram.

Christina jumped 40 inches. This is 13 more inches than Justin jumped. How many inches did Justin jump?

Number model:

$\underline{\hspace{4cm}}$

Answer: $\underline{\hspace{2cm}}$ inches

- 4 Use Xs to show the following height data on the line plot.

Heights of Plants (centimeters):
38, 35, 36, 40, 37, 38, 36, 38, 40

Heights of Plants

- 5 **Writing/Reasoning** Dan wrote this number model for Problem 3: $13 + ? = 40$. Do you agree? Explain your answer.

$\underline{\hspace{4cm}}$

$\underline{\hspace{4cm}}$

$\underline{\hspace{4cm}}$
