

# Comparing Lengths of Body Parts

First estimate the length of each body part in inches. Then have a partner help you measure the length of each body part to the nearest inch. Complete the table. Then complete Problems 1–4.

Body Part	Estimate (Inches)	Measurement (Inches)
Hand 		
Arm 		
Foot 		
Leg 		
Body 		

- ① Your arm is \_\_\_\_\_ inches longer than your foot.
- ② Your hand is \_\_\_\_\_ inches shorter than your arm.
- ③ Your body is \_\_\_\_\_ inches longer than your leg.
- ④ Write your own question about comparing lengths on the back of this page.
