

# Recycled Toy Challenge

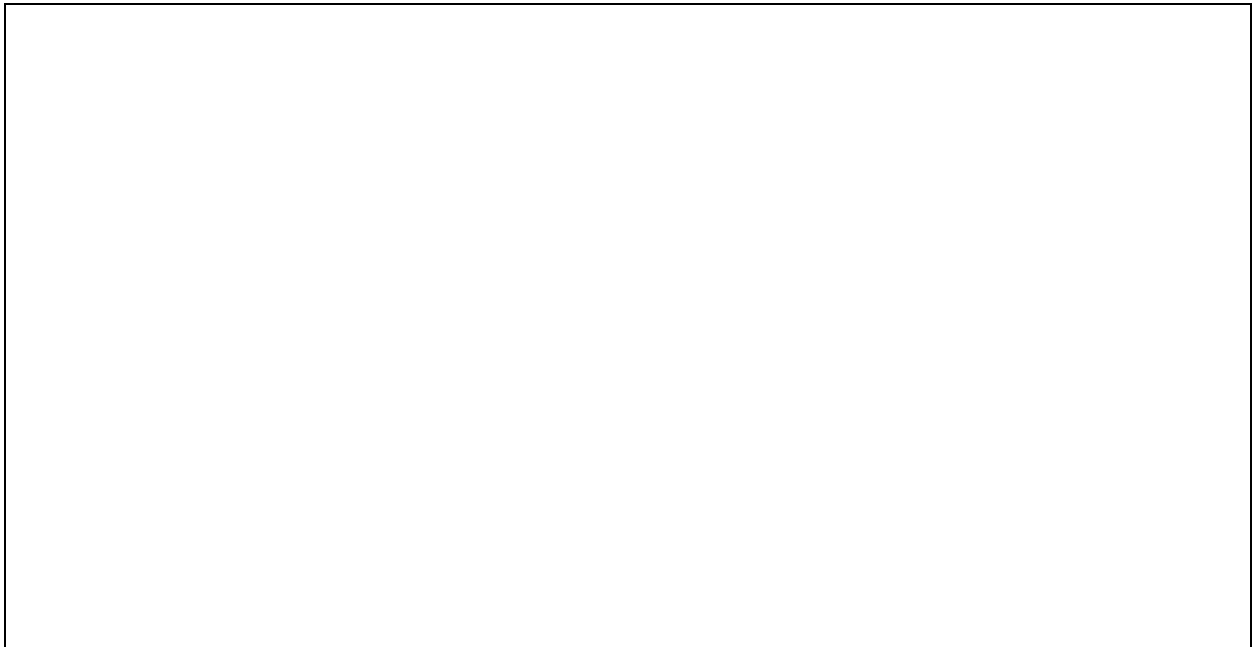

## **Your Challenge:**

Your challenge today is to create a brand new toy out of recycled materials. You can use ANY recycled material that you can find at your house.

**Ask:** What new toy could I create?

**Explore:** What do I have for materials?

**Plan:** *Draw a sketch of your toy design*

**Create:** Now it is time for you to build.

**Revise and Reflect:** What would you do differently next time?
